

Swiftautoid Portable Bluetooth Scale

SA BS500

Smart, Precise, Low power consumption as the best weighing solution

Introduction:

SA BS500 is mini portable bluetooth scale as an innovative weighing solution, which provides excellent performance for a wide variety of applications, such as logistics, warehousing, retail, government, distribution centers, manufacturing, field service, direct to store delivery, healthcare, laboratory, etc. This scale is integrated with more new AI technologies, such as voice broadcast, bluetooth communication, weighing, etc. It makes the operator with a high quality efficiency for achieving the weighing and weight data collection automatically and fastly.

Specification:

Model	SA BS500
Weight	0.56KG
Measuring Range	0.1~100kgs
Precision	0.3%
Standby Time	»1000hours
Unfold Dimension	Diameter 490mm*
Fold Dimension	275*61*41mm(L*W*H)
Power	2units AAA battery
Communication	Bluetooth
Display Screen	OLED
Operating	-10°C to +40°C
Touch Button	Zero/ Awaken
Speaker	Support

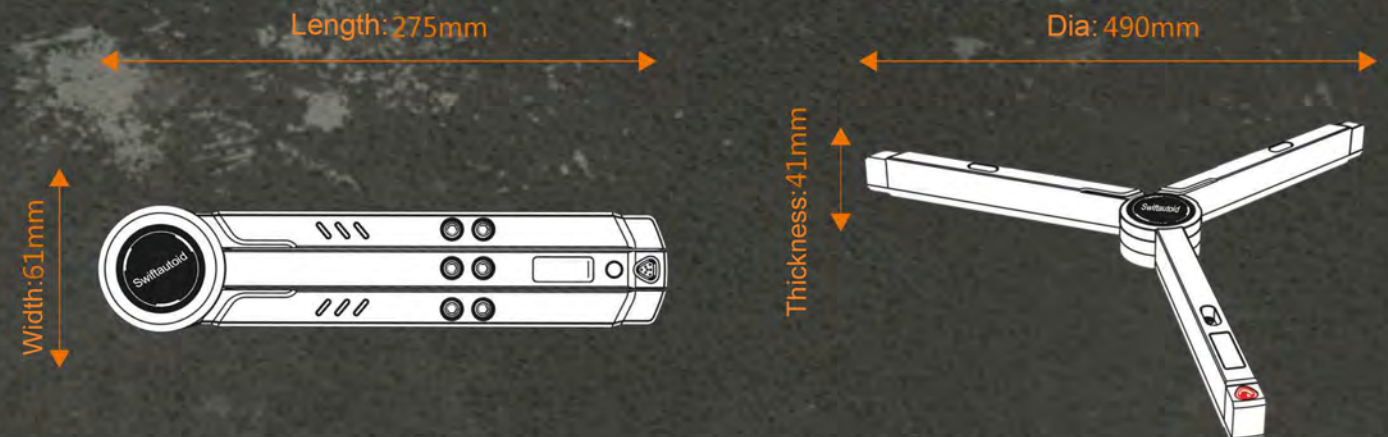

Characteristic:

Foldable and Light design for saving the space in congested operating environment;

ensure the weighing precision, we use four units pressure sensor and rewrite the traditional bluetooth scale measure rule

Support the auto sleep and awaken to keep the scale with low power consumption

Auto-Cumulative Weight, Zero Button, OLED Display Screen, Bluetooth Communication, Voice Broadcast, SDK Demo, etc.
